RULES

It is your responsibility as a competitor to know ALL the rules. Ignorance is no defence and the rules are available on www.britishtriathlon.org.

- It is your responsibility as a competitor to know and correctly complete the full course
- Foul and abusive language is not permitted and the failure to follow a marshals instructions, the police or referee will lead to disqualification. Marshals are volunteers who help with the running of the event that you are taking part in. Please respect them and thank them for their efforts.
- It is your responsibility to know the course and abide the highway code at all times.
- No outside assistance is allowed at any time.
- Please do not use mobile phones or listening devices that may impair your hearing or concentration in any way on the course (including transition) as this will lead to disqualification. When racing you need to be aware of other competitors and the general public (both on foot and live traffic).
- You **MUST** wear a safety helmet on the bike that is of ANSI Z90.4, SNELL B90, EN 1078 or equivalent. A CE mark is not an approved standard. The strap to your helmet must also be snug in its fitting and not altered in any way (and definitely not elastic). These will be checked visually when racking your bike.
- Any fittings on your bike (computers, handlebar extensions) must be positioned so as to prevent injury in the event of a crash. All handlebars and tri bars must be plugged. This will be checked visually when racking your bike and you will not be allowed if they are deemed dangerous.
- Bikes are single-use only - tandem bikes and electric bikes are not permitted.
- Your helmet must be fully fastened before racking your bike, similarly on your return to transition, your bike must be fully racked before you undo your helmet.
- Nudity is not allowed – after seeing one male competitor drop his swim trunks in transition and try and change into cycle shorts only to get his foot caught and then spend the next 30 seconds hopping around to release himself.....well I think you know why.
- You will also need to keep your chest covered at all times on the cycle and the run, no matter how hot it is.

RULES CONTINUED

- Bikes **MUST** be racked on the racking provided using either the seat post, handlebars or brake levers. Bikes must not be racked anywhere else and anybody not racking this way will be disqualified.
- Remember to place your equipment, as thrown equipment may interfere with other athletes and lead to a penalty.
- You are not allowed to mark your position in transition with any special device, flag etc and please be careful not to interfere with any equipment of your fellow athletes, either deliberately or accidentally.
- Event numbers must be worn on the back for the bike and on the front for the run. They must be clearly visible at all times. They must not be altered or mutilated in any way, otherwise you will be penalised.
- Ensure that you mount/dismount at the line marked outside of transition. There must be no cycling in transition.
- This is a non-drafting event: please see a guide on the following page. The course is comprehensively marshalled and signed with black arrows and fluorescent background. If a referee thinks you are drafting there is no appeal against this decision, so the rule of thumb is - be squeaky clean. It is cheating. If you are caught drafting once you will be penalised with a 2-minute penalty. If you get caught a second time you will be disqualified.
- It is your responsibility to know the course.
- If you read this and follow the advice, you should always be on the right side of the rules. Remember the referee will always be willing to answer any questions you may have however his/her decision is final.
- Should a time or penalty be queried after the event, this must be submitted within 24 hours of the race. A review panel will meet 48 hours after the event and all decisions will be final.
- All decisions are final. The race director and race referee have the final say on all decisions and outcomes. For safety purposes, the race director and race referee have the ability to implement and introduce laws and rules on the day.
- Video and Photography will be taken on the day for social media and marketing use. This will also include spectators and anyone who partakes in the run with a loved one channel.
